DETAILED ACTION

Status of the Claims

1. This action is in response to the preliminary amendment filed on October 21, 2003. Claims 1-3 and 6-8 are pending. Claims 1-3 and 6-8 are amended. Claims 4-5 are canceled.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-3, drawn to processing payment through a clearing house, classified in class 705, subclass 53.
- II. Claims 6-8, drawn to using cryptographic technology to transferring electronic cash, classified in class 713, subclass 189.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a clearing house apparatus having a clearing unit for instructing a payment institution to settle. Invention II has separate utility such as using keys to encrypt and decrypt a monetary amount. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3621

5. Applicant is advised that the reply to this requirement to be complete **must include an election of the invention to be examined** even though the requirement be traversed (37 CFR 1.143).
